In 2006 when you gave your speech in the House of Lords about the value of speech and language therapy in the justice field there were less than a handful of posts. During the last 15 years these posts have mushroomed and that is in no small part due to your passionate advocacy. Thank you so very much for all of your contributions and all of the best for your future

The 2006 quote from your speech in the House of Lords has been read out and discussed numerous times by our team during professional development workshops, lectures and conversations with many justice professionals in Aotearoa New Zealand. The spotlight you shone on the extent of the communication needs experienced by justice-involved people (and the solutions -SLTs!) has had an extremely far-reaching impact. Thank you for all you have done.
