FAREWELL

from your biggest fans

David!

So sad to see you go... I know it's just another sign of the worldwide "great resignation", but it still feels like we're losing a member of the family. I'll miss your tongue in cheek sense of humour, your retrofit stories, your insightful questions... but especially your sense of humour!

I'm glad we were able to meet in person before everything hit, and I'll reach out next time we plan to visit Alberta.

(Don't let your significant other boss you around too much at work!)

All the best,

Anonymous (ok ok, Mathieu L.)

David, it's been a pleasure working with you and cracking wise from time to time. Your insights and enthusiasm will be missed and appreciated by your new colleagues. Hope our paths cross again one day.

Tommy

David! So sad to see you go. Will miss your pragmatism, your probing, on-point questions, and your sense of humour. Your new gig does sound exciting though - so much impact to be made in that space. Best of luck with it. I hope you have a bit more time to go walking with the dogs and enjoy the incredible place you live in. Don't hesitate to get in touch if you are ever back home or indeed just want to chat about heat pumps!

All the best,

Steph

Hey David!

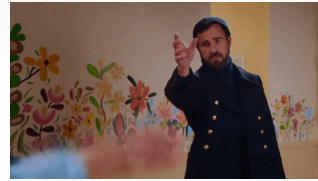

Sad to see you go, but excited to hear about your next project! From the short time we got to spend working together I know you'll be great at it. Stay in touch!

Kris

David! I am glad I got to work with you on 2 projects in my short time here before your departure! It has been so nice getting to know and work with you! Best of luck on your next adventure! 🍷

Ali

Hey David! So sad to see you go but I'm sure you'll crush your new gig - much-needed local support! Hope you're liking Edmonton so far and be sure to check out the Sewing Machine Factory (if it still exists).

Shruti

Hey David! It's been great working with you and I wish you the best of luck in your new job! It sounds very exciting and like a great fit for you :) Enjoy!!

Paige

DAVID, IT HAS BEEN AN EXTREME PLEASURE WORKING WITH YOU AND GETTING TO KNOW YOU OVER THE LAST MANY MONTHS. IT'S WEIRD TO THINK WE'VE NEVER MET IN PERSON! I'VE REALLY APPRECIATED YOUR PASSION, INSIGHT, COMMUNICATION, AND THE MANY OTHER WAYS YOU HAVE POSITIVELY CONTRIBUTED TO THE WORK WE DO! I'M EXCITED TO SEE WHAT YOU DO NEXT AND WILL BE VERY MAD IF YOU COME THROUGH TORONTO WITHOUT REACHING OUT (AS I WILL DO THE SAME IF I'M IN EDMONTON).

NICK

David - Thank you for everything you've contributed to our team over the past 2 years, including not just your work on projects, but your humour, your enthusiasm, your great sense of fun and your caring for other team members. I really have enjoyed our conversations and I look forward to staying in touch. Please do keep in touch and if there's ever anything you need - an ear to listen, advice to give, experience to share - do not hesitate to reach out.

Raegan

David - Congratulations on the new gig. I hope it's not too much of a shock seeing your colleagues face-to-face everyday! I've enjoyed working with you these past few months. The work has benefited from your insights and perspective. I hope the new opportunity provides you with plenty of time to enjoy the outdoors, walk the dogs, and keep us updated on your house's journey to net-zero.

All the best,

Matt

It's been a real pleasure working with you David. I've especially appreciated the time and energy that you put into supporting the ops team, and the team in general, through your help with recruitment and the Happiness Committee.

I wish you the best with your new job. I'm sure that you'll excel as a teacher - they're lucky to have you! I hope that we cross paths again in the future. And I wish you the best with your energy efficiency projects in your new home!

MN

David! It's sad to see you leave the team, but I hope it will be for the best for you! I wish you good luck in your new career path and that you will find yourself beaming in that new position. Looking forward to crosspath again maybe one day! Take care and good luck.

Audrey

we haven't had the chance to work together but it is sad to see you leave David! wish you the best of luck in your new projects!

Philippe B.

It always was a pleasure to work with you David. I wish you good luck for the future. !

Sophie Geffroy

David - even though we didn't get a chance to work on any projects, I always enjoyed having you on the team. You're always ready with thoughtful insight and usually a joke, too - a great combination! Wishing you all the best as you explore your new home city and start your new role.

Claire

David- been a pleasure to get to know you and to have spent some time chatting about everything and nothing, even though we barely worked together! Congrats on the new opportunity, hope you'll have tons of fun and good luck with the renovations! Take care, until next time.

val

David I have really enjoyed working with you these past two years - fun to brainstorm with and share ideas. I loved hearing about all your adventures in the mountains, and most of all, your adorable dogs. Best of luck with everything. Hope to cross paths again soon.

Patricia

So sad to you see you go, David! It's been a pleasure getting to know you and working together on the occasional project and proposal. Your enthusiasm and insights will be missed.. Enjoy this next exciting phase in your career and please stay in touch!

Pam

Hi David, I'm sorry we didn't get a chance to work together for longer, but I suspect we'll cross paths again. Thanks for everything you've done and will do in the clean energy sector! Lindsay

Hey David! Good luck on the path forward! IT was great to have you around, although it was too short and without sufficient opportunities to meet in person (I don't recall, did you ever make it to Montreal when you started?) Stay in touch,
François

I am very upset I never got to meet our English counterparts properly – we will have to rectify that at some point! It's been such a pleasure getting to work with you and it's been fantastic becoming friends and connecting over so many things! Would love to get together one day and play boardgames, drink good beer, and do lots of activities! Excited for you that you're trying something new and adventurous (good on you!). If you're ever in BC you guys have a couch to crash on in our weird apartment and I'll definitely be reaching out if I'm near Edmonton. Will be seeing you on strava!
Emma

David! Congrats and good luck in your new endeavors! It has been a pleasure working with you... you'll definitely be missed. If you ever stop by Montreal, make sure to stop by the office to say hello.
Looking forward to a few games of chess with you 😊

Frank

David, it's been a pleasure to work with you over the past 2 years. In reflecting on our work together, I am realizing now that I have consistently left our conversations/discussions having learned something new (whether it was energy-related knowledge, a resource/tool, a new virtual game or types of kayaks)!

Thanks for all the great work and thought-leadership you've led and contributed to (including "fun" things like bill impact analyses). I hope our paths cross again soon!

Ahmed

David! Sad to see you go, but also happy for you - I wish you nothing but the best in your future projects! I will keep fond memories of our exchanges - from formatting tables, to talking about training, to finding the 'real' name of the Dunsky colours on <https://mattg.co.uk/projects/paint/> and the many LOLs we shared. I look forward to crossing paths with you again!

Justine

David,

I feel so privileged to have worked with you, first at EEA and now at Dunsky. It gives me hope that our work paths will cross again. And I'll be sure to reach out next time I'm in Edmonton visiting my sister.

You have been such a great member of this team. You will be missed very much, but I am very excited about your new role - you'll be an amazing teacher. Keep building up that market capacity we keep talking about!

All the best,

Lauren

David,

I'm so glad we were able to work together in bits and pieces over the past year. I'm even more grateful for your willingness to share ideas and resources, to kick around ideas in order to make better sense of them, to patiently explain complex topics, and to share a laugh and a pooch portrait.

Our loss is the College's win and I know you'll continue to make a big impact. Stay in touch and hope we can grab a coffee or a beer in Edmonton or Vancouver one of these days!

Hannah

I wish you so much fun in your new adventure David and I really hope that you will stay in touch to tell us all about it. However, you are going to be missed! Especially for our coffee chats that always led to fascinating conversations. I hope that we will finally meet in person one day in Alberta or in Quebec :)

Karine

David,

While it's devastating that you're leaving after helping me join the Dunsky team as my onboarding coach, I'm genuinely happy and excited for your next steps. You've been an absolute delight to discuss limitless ideas with and a consistent voice of reason.

I hope your curiosity continues to take you to unexplored places. You will be greatly missed. Thanks for everything!

Yazan

David,

It has really been a pleasure to have known you and worked with you. Although we missed each other by a few days (before all this pandemic) I hope to meet you sooner.

All the very best for the future.

Take care!

Anirudh

Hi David, It's been great working with you the past few years. I am sad to see you go, but wish you the best of luck in your new role and hope that the challenges you face will feed your curiosity and desire to make a positive impact toward addressing climate change. I think that if we did a study of potential in Alberta, you would definitely be a stand out in the MAX scenario 😊

Keep well until our paths cross again,

Alex
