Ms. Chen,

Thank you for being an awesome teacher! The brain breaks make class much more engaging and interactive.

Hi Ms. Chen!

Thank you for being a fantastic math teacher and for always being willing to help students who are struggling. Teaching remotely likely wasn't easy but you've navigated it super well. Your class is always entertaining and your jokes make me laugh (even though you can't hear it because I'm usually muted LOL).

Sincerely,

Rosie B :)

Ms. Chen,

You make math easy to understand and even fun; thank you for being an amazing teacher!!

Hi Ms Chen!

Thanks for being such a fun math teacher this year! As much as I don't like math sometimes, your brain breaks were always fun, especially the german lessons!
