Dear Mrs. Buensuceso,

Thank you for being such a great science teacher! I have learned so much this year and this was all because of you. In the beginning, I was not able to express scientific reasoning, but through practice and your teaching, I am able to give more logical explanations. Happy teachers appreciation week!

Your student,  
Anish Raj

Hi Ms. Buensuceso,

Thank you for being such a supportive counselor this year! Your supportive and kind messages really helped the process of college applications feel smoother. I know you had a lot of work to do as a counselor and I really appreciate the time you took to respond to my questions in a thoughtful way.

Julia Khinno
