*hi ms. schwinge! I super appreciate you and your class is one of my favorites. thank you for always being willing to answer our questions, respond to our friday check-ins and provide us with tons of psych and mental health resources. despite distance learning and meeting in-person maybe three times this year, i actually feel like we have a bond haha. im gonna miss listening to your lectures! have a great day!*

Hi Ms. Schwinge! Thank you for being such a caring teacher. I am really glad I took psychology, not just for the content, but to have you as a teacher. You give me faith that there are genuinely kind people out there!

Hi Ms. Schwinge!

Taking AP Psych this year has been so! much! fun! I'm always excited when it's time for 4th period because I know I'm going to learn so many new things about the brain as well as the world. Thank you for being such a great teacher who truly cares about the wellbeing of her students. I also appreciate you being willing to listen to me rant about things that are unrelated to school and for offering support. I'm really going to miss having you as a teacher.

Sincerely,  
Rosie B :)

dear Ms. Schwinge,  
you are one of the best teachers I have ever has. I am so sad that I only had you for a little less than a year but it felt like so much longer with all that you taught me. Being in MI was so fun, I am so glad you were my teacher you have a way of making even boring assignments intresting and relatable. Thank you for all that you have done especially behind the scenes
