*Being a
Nurse Means...*

You will never be bored.
You will always be frustrated.
You will be surrounded by challenges,
so much to do and so little time.
You will carry immense responsibility
and very little authority.
You will step into people's lives
and you will make a difference.
Some will bless you.
Some will curse you.
You will see people at their worst -
and at their best.
You will never cease to be amazed
at people's capacity for
Love, courage, and endurance.
You will see experience resounding triumphs
and devastating failures.
You will cry a lot.
You will laugh a lot.
You will know what it is to be human
and to be humane.

To all graduates,

Congratulations on getting through such hard times and achieving this, you truly deserve it. Know that this was the easy part of life. The unfortunate, yet truly exciting thing about your life, is that there is no core curriculum. The entire place is an elective. The world is your oyster, shine bright and believe in yourself more than anything. We wish you the best of luck.

Congratulations to all of you. We cannot wait to invite you back on campus for celebrations but it is important to pause now too and enjoy the sense of achievement. To complete your degree at any time is a major achievement which should always be celebrated. To complete your degree during a pandemic, not that is something else and I have been blown away by your commitment and your resilience throughout it all. Keep in touch, we want to know what you are doing, we want you to feel a part of #TeamBradford forever. Now, go and make that difference on our world. Enjoy!
